2023 TEAM

@TechDiff4085

## Who We Are

**Team 4085** is a Reynoldsburg, Ohio FIRST Robotics Team consisting of 50 eager students, aided by our mentors and sponsors. Our team strives to spread the message of FIRST by using innovative technologies to construct unique robot designs and increase STEM Education within our community.

## **Our Founding**

**Beginning** with 30 students in 2011, over the past 11 years, Team 4085 has become a consistent and recognizable competitor in the FIRST Robotics community.

### **Student Leadership**

- Learn how to build and compete with a personally designed robot
- Train on project and time management with skilled professionals
- Gain hardware and software skills with access to new technology
- **Prepare** for professional careers by developing personal development and marketing skills
- Foster an appreciation for teamwork

## FIRST ROBOTICS

The FIRST Robotics Competition (FRC) is an annual event where high school robotics teams compete by building robots designed to complete specific challenges. Similar to a sporting event, each competition is comprised of matches leading to the playoffs. Students use science and technology skills to compete for ranking spots and the chance to advance to the World Championships.

Teams must build a robot within the span of build season, which is six weeks. Students have to design, build, and program the robot to be able to compete

During the competition, teams must abide by comprehensive rules and have the knowledge to fix their robot if it is damaged at any time on the field of play.

Mentors, coaches and volunteers offer their time and skills to help teams succeed. While involved in FRC, teams have a fun learning experience and participate in real-world engineering and learning the importance of teamwork.

## **More than Robots!**

#### **Refugee and Immigrant STEM Experience (RISE)**

RISE, founded in 2021 by a member of Team 4085 whose parents had immigrated to the United States, serves to provide STEM education to refugee and immigrant students from underserved communities. To achieve this mission, Team 4085 partners with several organizations within Reynoldsburg and the broader Columbus communities to host events with hands-on STEM activities.

#### Tobi's Toys

Founded in 2016, Tobi's Toys is a Team 4085 initiative that takes battery powered toys and modifies them for children with disabilities. Some children with motor disabilities are unable to squeeze plush toys, so our team members rewire the toys by connecting buttons for the child to press instead of having to squeeze. With this one, simple change, every kid is able to find joy in their toys.

#### **Girls in STEM**

Team 4085 regularly visits local elementary schools in order to encourage students, particularly underrepresented girls, to pursuing STEM fields. In addition, Team 4085 partners with several Girl Scout troops to gain access to a variety of STEM-inspired badges. Our ultimate goal is to get more girls into robotics and show them the opportunities that come with FIRST and the opportunities with science!

Please join us In helping grow the next generation of engineers, designers, journalists, and more by helping us expand our sponsorship partners!

## **Budget Breakdown**

#### Anticipated Expenditure 2022-23 Season

Pittsburgh Registration	\$6000
Miami Valley Registration	\$3000
TOTAL REGISTRATION	\$9000
Pittsburgh Bus Rate	\$6500
Pittsburgh Hotel Rate	\$5000
	44744
Miami Valley Bus Rate	\$2500
Miami Valley Hotel Rate	\$3000
Advanced Team Fuel Rate	\$300
TOTAL TRAVEL	\$17300
Promotional Material	\$1000
Creation Services	\$250
TOTAL MARKETING	\$1250

Mechanical Parts	\$4000
Electrical Parts	\$1500
Software Equipment	\$1000
Other Materials	\$500
TOTAL CONSTRUCTION	\$7000
Tobi's Toys Adaptation	\$1000
RISE Initiative	\$1200
Girls In STEM Initiative	\$1000
FLL and Robotics Club	\$1500
TOTAL OUTREACH	\$4700

Total Expenses: \$39,250

#### **PURPLE SPONSOR**

#### Up to \$999

Letter and photo of appreciation Logo on website and competition shirt

#### **GOLD SPONSOR**

#### \$1,000 - \$9,999

Logo on robot and competition banner Logo on print materials Custom designed season plaque All Purple Sponsor Benefits

#### **PLATINUM SPONSOR**

#### \$10,000 - \$24,999

Optional Company visit by Team 4085 with robot presentation Company banner displayed in robotics center Logo placed most prominently on robot Company name announced with official team name at competition Distribution of sponsor-provided materials at events All Gold Sponsor Benefits

#### **TOBI IMPACT SPONSOR**

#### \$24,999+

Naming rights for Team 4085 Robotics Center All Platinum Sponsor Benefits

#### \*\*Goods and services serve as monetary equivalence

# **Team 4085**
