

TECHNICAL DIFFICULTIES TEAM 4085

Newsletter **Week #8**

March 4th, 2023

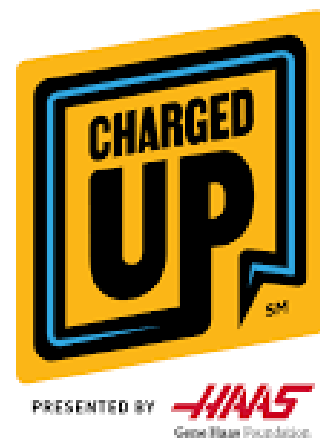

Eighth Week of our Season!

4085 Media Team

Welcome to week 8 of the 2023 season! This week has been filled with preparations for competition! We are only two weeks away from our first competition at the Miami Valley Regionals and we are so excited! Marketing has been planning for team spirit at competitions and the Build team has been hard at work on the robot!

We also wanted to thank everyone who has supported our team by purchasing something from the last couple fundraisers we hosted, thank you parents, students, and friends!

Marketing Team

The **outreach** sub-team has some of their members training for the FIRST Impact Interview. They have also been planning our next few events, such as our Herbert Mills meeting and our annual tours to the elementary schools.

The **business** sub-team finished our business plan. They also worked on creating spirit wear. They ordered spirit wear and worked on our awards that we're taking to competition. ustruction hats and worked on our awards. d on our awards.

The **media** sub-team made social media posts and worked on website updates. They also helped tactical by looking at other team's social medias.

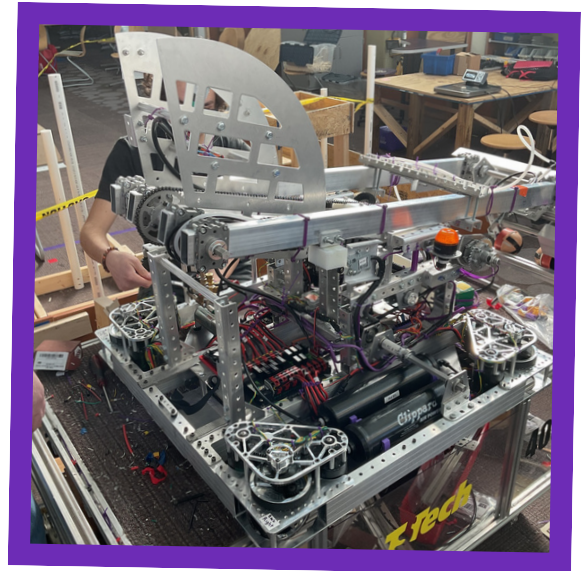

Build Team

The **mechanical** sub-team finished off their work on the robot and handed it to the electrical team for further construction.

The **electrical** sub-team has been working on wiring the robot this week. They have got almost all of the wiring done already!

The **fabrication** sub-team worked on creating t-shirts and hoodies for our team!

The **software** sub-team worked with LED lighting and programmed two routes for the robot to use during the autonomous period of the game.
